PROFESSIONAL SURVEYOR AND MAPPER'S NOTES:

- 1.) Unless stated otherwise, this survey prepared without benefit of abstract of title.
- 2.) The lands described herein or hereon are subject to existing Easements, Rights-of-way, Restrictions and Setbacks, whether or not disclosed of record.
- 3.) Unless stated otherwise, jurisdictional areas, if any, are not located.
- 4.) Unless shown or stated otherwise buried objects have not been located.
- 5.) Unless shown or stated otherwise foundations beneath the surface have not been located, thereby precluding the extent of violations caused by encroachments of such foundations, if any exists, of a deed, easement, setback, or right-of-way line, from being stated or shown herein or hereon.
- 6.) Unless shown or stated otherwise the determination of boundaries by this survey is based strictly and solely on the legal description shown herein or hereon, and the representation of such boundaries (or boundary) herein or hereon is not in any way intended to represent any boundary of any other lot, block, parcel or tract of land, unless or except such other boundaries (or boundary) in fact coincide and are the same.
- 7.) Unless shown or stated otherwise this survey does not purport to show conflicting boundary lines or boundaries of adjoining which could or would be produced on the ground by reference to any adjoining property record legal description.
- 8.) This office has not caused to be researched chain of title or deeds of adjoining and has no opinion as to overlapping descriptions, hiatuses, excess or deficiency, junior or senior rights, or any other title matter, fact or inconsistency which occurred and through search of the title record of adjoining may reveal. Facts may exist in the record, or which may otherwise be affirmed through other valid basis for establishing any real and actual ownership right, which this office is not aware of, has not attempted to discover and does not make any claim to have attempted to discover, but which if otherwise known, discovered, revealed or established would constitute or disclose a boundary inconsistency.
- 9.) Unless shown or stated otherwise underground utilities have not been located.
- 10.) This survey does not reflect or determine ownership. (i.e. For questions regarding title, a title opinion of an attorney at law licensed in Florida or a certification by an abstractor or a title company, should be sought.)
- 11.) Unless depicted herein or hereon information, pertaining to easements or rights-of-way of record, has not been furnished to this office.
- 12.) Some fixed improvements may exist which are not shown on this survey.
- 13.) This map is protected by copyright and is certified only to the individual or individuals named herein or hereon and only for this current singular instance. Any use or reproduction of all or of any portion of this survey and/or map without the express written permission of the surveyor is prohibited. Use of this survey and/or map in any subsequent instance is not authorized. The surveyor expressly disclaims any certification to any parties in future instances. No individual or individuals other than those named herein or hereon shall rely upon this survey and/or map.
- 14.) This map may not be used with an affidavit or letter of any kind for reuse including, but not limited to, future closings, plot plans, construction, landscaping, permitting, etc. It is a violation of State Statute and the Federal Copyright Act to copy or modify and reuse this map beyond the date and scope. Southland Surveying & Mapping, Inc., its associates, and/or agents shall not be liable for the use of this survey by any other entities or persons for any purpose beyond the date and scope.
- 15.) No investigation concerning environmental and subsurface conditions, or for the existence of under or above ground containers or facilities which may affect the use or development of this property was made as part of this survey.
- 16.) Measurements shown for improvements are intended for location purposes only, and shall not be used for new construction planning or design without prior verification.
- 17.) To obtain location information of features shown on the map without tie dimension, data should be staked on the map as reproduced on stable based material, using a scale of one inch equals 100 feet. This method will provide an approximate level of accuracy of two feet (plus or minus).
- 18.) Data collected on assumed datum. Displayed monumentation (found or set) to be considered control points in reestablishing or checking the position of other displayed points or features shown on the map.
